Part II – Activity Schedule

Section V. Activity Schedule**Objectives**

The objectives of the Activity Schedule are

- (a) to provide sufficient information on the quantities of Services to be performed to enable bids to be prepared efficiently and accurately; and
- (b) when a Contract has been entered into, to provide a priced Activity Schedule for use in the periodic valuation of Services executed.

In order to attain these objectives, Services should be itemized in the Activity Schedule in sufficient detail to distinguish between the different classes of Services, or between Services of the same nature carried out in different locations or in other circumstances which may give rise to different considerations of cost. Consistent with these requirements, the layout and content of the Activity Schedule should be as simple and brief as possible.

Dayworks Schedule

A Daywork Schedule should be included only if the probability of unforeseen work, outside the items included in the Activity Schedule, is high. To facilitate checking by the Employer of the realism of rates quoted by the bidders, the Daywork Schedule should normally comprise the following:

- (a) A list of the various classes of Services, labor, materials, and Plant for which basic day work rates or prices are to be inserted by the Bidder, together with a statement of the conditions under which the Service Provider will be paid for work executed on a day work basis.
- (b) Nominal quantities for each item of Dayworks, to be priced by each Bidder at Dayworks rates as Bid. The rate to be entered by the Bidder against each basic Dayworks item should include the Service Provider's profit, overheads, supervision, and other charges.

Provisional Sums

The estimated cost of specialized work to be carried out, or of special goods to be supplied, by other Service Providers (refer to Clause 8 of the Conditions of Contract) should be indicated in the relevant part of the Activity Schedule as a particular provisional sum with an appropriate brief description. A separate procurement procedure is normally carried out by the Employer to select such specialized Service Providers. To provide an element of competition among the bidders in respect of any facilities, amenities, attendance, etc., to be provided by the successful Bidder as prime Service Provider for the use and convenience of the specialist contractors, each related provisional sum should be followed by an item in the Activity Schedule inviting the Bidder to quote a sum for such amenities, facilities, attendance, etc.

These Notes for Preparing an Activity Schedule are intended only as information for the Employer or the person drafting the bidding documents. They should not be included in the final documents.

Part III –Contract

Section VII. General Conditions of Contract

1. This sample contract for the Provision of Services has been prepared for use when hiring firms to provide Services paid on the basis of Time-Based remuneration.

2. Time-Based contracts are used when definition of the quantities to be performed is not certain and may be increased at any time depending on the need, when the commercial risk taken by the Service Provider is minimal, and when therefore such Service Provider/s are prepared to perform the assignment for an agreed predetermined rate. Such price is arrived at on the basis of inputs—including rates—provided by the Service Provider. The Employer agrees to pay the Service Provider according to a schedule of payments linked to the delivery of certain outputs. A major advantage of the time-based contract is the simplicity of its administration, the Employer having the flexibility of increasing the quantities and only to be satisfied with the outputs without monitoring the staff inputs.

3. The Contract includes four parts: the Form of Contract, the General Conditions of Contract, the Special Conditions of Contract, and the Appendices. The Employer using this sample contract should not alter the General Conditions. Any adjustment to meet project features should be made only in the Special Conditions.

These notes are intended only as information for the Employer or the person drafting the bidding documents. They should not be included in the final documents.

6.6 Price Adjustment

6.6.1 Prices shall be adjusted for fluctuations in the cost of inputs only if **provided for in the SCC**. If so provided, the amounts certified in each payment certificate, after deducting for Advance Payment, shall be adjusted by applying the respective price adjustment factor to the payment amounts due in each currency. A separate formula of the type indicated below applies to each Contract currency:

$$P_c = A_c + B_c \frac{L_{mc}}{L_{oc}} + C_c \frac{I_{mc}}{I_{oc}}$$

Where:

P_c is the adjustment factor for the portion of the Contract Price payable in a specific currency “c”.

A_c , B_c and C_c are coefficients specified in the SCC, representing: A_c the nonadjustable portion; B_c the adjustable portion relative to labor costs and C_c the adjustable portion for other inputs, of the Contract Price payable in that specific currency “c”; and

L_{mc} is the index prevailing at the first day of the month of the corresponding invoice date and L_{oc} is the index prevailing 30 days before Bid opening for labor; both in the specific currency “c”.

I_{mc} is the index prevailing at the first day of the month of the corresponding invoice date and I_{oc} is the index prevailing 30 days before Bid opening for other inputs payable; both in the specific currency “c”.

If a price adjustment factor is applied to payments made in a currency other than the currency of the source of the index for a particular indexed input, a correction factor Z_o/Z_n will be applied to the respective component factor of p_n for the formula of the relevant currency. Z_o is the number of units of currency of the country of the index, equivalent to one unit of the currency payment on the date of the base index, and Z_n is the corresponding number of such currency units on the date of the current index.

6.6.2 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be

deemed to take account of all changes in cost due to fluctuations in costs.

- (c) containing such other information as the Accounting Officer of the Public Entity administering the contract may require to satisfy himself that the provisions under this clause have been complied with.

6.8.3 Where the Accounting Officer of the Public Entity administering the contract is satisfied that remuneration is still due to an employee employed under this contract at the time the claim for payment is filed under subsection 1, he may, unless the remuneration is sooner paid by the Service Provider,

arrange for the payment of the remuneration out of the money payable under this contract.

- 6.8.4 Every Service Provider shall display a copy of this clause of the contract at the place at which the work required by the contract is performed.

- 8.2.2 The Adjudicator shall give a decision in writing within 30 days of receipt of a notification of a dispute.
- 8.2.3 The Adjudicator shall be paid by the hour at the rate **specified in the BDS and SCC**, together with reimbursable expenses of the types **specified in the SCC**, and the cost shall be divided equally between the Employer and the Service Provider, whatever decision is reached by the Adjudicator.
